## **1.1 INTRODUCTION**

Kinetic Projects Ltd. (KPL) is a division of Gemini Corporation, which is a publicly traded Alberta Corporation. KPL was established in 1987 to provide engineering, procurement and construction services to the petroleum and energy sector. Kinetic Projects Ltd. is listed on the Canadian Venture Exchange (Symbol: GKX).

Kinetic Projects Ltd. can provide timely services and meet our clients' needs while providing cost effective project management, innovative engineering and quality workmanship. We are well equipped and experienced and strive for responsive mobilization. From project inception through start-up, we maintain high standards in a safe environment.

Our experience includes modular plant designs, custom equipment fabrication, field installations, engineering and design, and turnkey processing facilities. Kinetic Projects Ltd. can undertake any of the above components separately or combined.

Kinetic Projects Ltd. is interested in being a part of your upcoming projects and to that end is prepared to tender competitively, or to negotiate any type of contract most suitable for your project. We are proud of our achievements and invite you and your company to familiarize yourselves with our corporate profile and the services offered.

## **1.2 CORPORATE INFORMATION**

### **Corporate Affiliations**

Kinetic Projects Ltd. is affiliated with Gemini Engineering Ltd. and GEM Production Management.

### **Office Location**

Kinetic Projects Ltd.  
700 - 5940 Macleod Trail S.W.  
Calgary, Alberta  
T2H 2G4  
Phone: 258-1971  
Fax: 259-5643

### **Branch Office (Shop/Yard)**

Kinetic Projects Ltd.  
4100 - 67 Street  
Ponoka Industrial Park  
Ponoka, Alberta T4J 1J8  
Phone: (403) 783-3365  
Fax: (403) 783-8853

### **Banking**

Bank of Montreal  
6100 Macleod Trail S.W.  
Calgary, Alberta T2H 0K5  
Attention: Art Fopma (403)503-7459

### **Insurance**

CRS Insurance Ltd.  
602, 5940 Macleod Trail S.  
Calgary, Alberta  
T2H 0K0

Attention: Mr. Bill Adair (403) 221-9005

### **Workers Compensation**

Kinetic Projects Ltd. is registered in Alberta #281165-7.  
Kinetic Projects Ltd. is registered in Saskatchewan #565833-0.  
Kinetic Projects Ltd. is registered in British Columbia #506836-142.

### **APEGGA**

Permit to Practice #P5731

## **1.3 SERVICES OFFERED**

### **Construction**

Kinetic Projects Ltd. can provide single source responsibility for projects ranging from grass roots facilities, shop prefabrication of piping and structural steel packages and systems, to shutdowns in existing operations. We are an open shop contractor.

### **Engineering**

Kinetic Projects Ltd. can provide conceptional and detailed design in all disciplines including Process, Mechanical, Electrical and Civil Engineering. This service can be provided as a supplement to our construction activities either on a full turnkey basis or on an as required basis.

### **Fabrication Facility**

Kinetic Projects Ltd. in February 1998 relocated to a new 20,000 sq/ft fabrication shop on 12.5 acres in the Ponoka Industrial Park.

Kinetic Projects Ltd. has the capability of engineering, designing and fabricating process skid packages and pressure piping modules in this facility. These can be supplied in conjunction with the field construction capability to provide full turnkey engineered, equipment supply and construction packages. With the authority of the Alberta Pressure Vessel Safety Association, Kinetic Projects Ltd. can construct and repair pressure vessels, subject to Section VIII Division I of the A.S.M.E. code.

### **Procurement**

- Planning and Scheduling
- Purchasing, Expediting and Inspection
- Cost Control

## **1.4 QUALITY CONTROL**

Alberta Boilers Branch  
Registered Quality Control Manual - AQP-1337  
Registered Weld Procedures - W. P. 1292-2

Saskatchewan Boiler & Pressure Vessel Safety Section  
Registered Quality Control Manual - QCM-431-08-98

British Columbia Boiler and Pressure Vessel Safety Section  
Registered Quality Control Manual #A-00001087

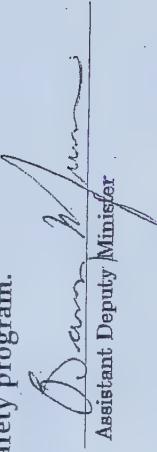

# Partnership

This certificate recognizes that

## *Kinetic Projects Ltd.*

In keeping with the principles of *Partnership* has, as of this date:

- developed and implemented a health and safety program and,
- met the standard of *Partnership* through an independent evaluation of their health and safety program.

  
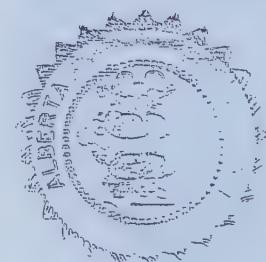

Brian Munro  
Assistant Deputy Minister

Partner in Health and Safety

Alberta Labour

Date June 21, 1993

Certificate # 93-06-202

**Alberta**  
LABOUR

Certificate No: 2264

Expiry Date: October 26th, 2001

Registration No: AOP-1337

# Quality Control Program

## Certificate of Authorization

This is to Certify that Kinetic Projects Ltd.,  
having complied with the provisions of The Safety Codes Act, is hereby authorized to:

- construct pressure vessels per ASME Section VIII, Div. 1
- construct pressure piping per ASME B31.1 & B31.3
- repair or alter existing ASME Section VIII, Div. 1 pressure vessels
- manufacture category A & B fittings in accordance with CGA B51 and the Alberta Safety Codes Act & Regulations

at 4100 - 67 St, Ponoka, AB & at field sites in AB  
controlled from 700, 5940 MacLeod Trail, SW, Calgary.

Dated at Edmonton, this  
16th day of December, 1998.

Chief Inspector and Administrator

## **1.5 SAFETY POLICY STATEMENT**

### **TO ALL EMPLOYEES:**

It is the policy of Kinetic Projects Ltd. that all persons are entitled to work under the safest possible conditions in our industry. To that end, the Safety and Health of all persons shall be a constant determining factor in our project planning stages and in our everyday work.

All levels of Management and Supervision are responsible to develop the proper attitude and standard job planning performance that will enable our organization to not only be consistent with, but also to surpass the best existing practices in our industry.

The formula for success in any Accident Prevention Program is not easily attained and requires the skilful attention of each and every person.

The commitment to the program by all levels of Management must be firm, unwavering and transmitted to all levels of Supervision in every aspect of our work.

Supervision, at all levels, must in turn be aware of Management's commitment to the Accident Prevention Program; and be prepared to implement that standard of commitment, which will enable us to become the leader in our industry.

All persons must recognize our efforts in the Accident Prevention area and assume their responsibility in the performance of their daily work.

This policy illustrates the recognition and acceptance by Management of the fact that Safety and Production are inseparable, therefore, planning for Accident Prevention shall be incorporated into all phases of our work.

### **SAFETY AND PRODUCTIVITY - PARTNERS FOR LIFE.**

If you wish, we would be pleased to provide a copy of the Kinetic Corporate Safety and Loss Prevention Manual.

## SHOP ORGANIZATION CHART

March 2001

**WARREN FAST, P.Eng.**  
**General Manager**

**EDUCATION**

B.Sc., Civil Engineering, University of Calgary, 1981

**WORK EXPERIENCE**

1990 - Present      **KINETIC PROJECTS LTD.**  
**General Manager**

Responsible for all sales, marketing, human resources, estimating and cost management, quality control, procurement and project managers, engineers, designers and construction personnel (shop and field) for a variety of oil and gas facilities.

1989      **MECALTA INDUSTRIES LTD.**  
**Project Manager**

- Shell Virginia Hills – Civil construction
- Home Oil - South Cecil Royce Production Facilities
- Amoco Cypress Sour Gas Plant - Civil and Mechanical Construction
- Amoco Sundre Unit #1 - Battery Expansion
- Mobil Oil - McLeod Valley Gas Plant
- PanCanadian Petroleum - Lathom Battery

1987 - 1988      **M.W. KELLOGG CO. LTD.**  
**Contract Administration/Field Construction Management**

In conjunction with Syncrude Canada Ltd. at Mildred Lake, Alberta and Methanex at Cape Horn Methanol Project In Punta Arenas, Chile. Duties included as well as the above titles, quality control, cost engineering and scheduling, preparation of contract packages, contractor relations, administering field work, approving billing, shop drawings and general inspection for compliance with plans and specifications, and supply contractors with the necessary direction and information required. Other assignments included general field engineering activities, civil and mechanical, mechanical quality control inspector, and safety engineer.

**WARREN FAST, P.Eng.**  
**General Manager**

1981 - 1986

**FISH ENGINEERING LTD.**  
**Field Construction Engineer**

Dome Petroleum Ltd.

- East Edmonton Storage Revisions
- Ft. Saskatchewan Storage Facilities
- South Edmonton Ethane Plant
- West Pembina Proc. Plant Lodgepole, Alberta
- Dome Empress Ethane Expansion Empress, Alberta

Palmer Ranches

- Pincher Creek Ammonia Plant

Alberta Natural Gas

- A.N.G. Ethane Expansion I & II  
Cochrane, Alberta

Duties included co-ordination of all field engineering activities, quality and quantity inspections, progress reporting, designing field changes, as-built construction, and general troubleshooting. Supervision of field surveyors, engineering assistants, and organization and supervising crews of tradespeople in disciplines of civil, mechanical, and electrical miiwrighting. Mechanical construction including equipment erection and internal inspections, rotating equipment alignments, pressure testing, and tie-ins to existing facilities. Process inspection including flow sheet, instrumentation, and electrical checkouts. Subcontract administration including control and inspection for payments, authorizations, contractors in building, insulation, painting, fireproofing, and stress relieving.

**M. D. (DANA) BUDD, P.Eng.  
Project Engineer**

**EDUCATION**

Bachelor of Science in Mechanical Engineering, University of Calgary, 1994

University of Calgary Graduate level courses:

- Chemical Engineering 609 - Natural Gas Processing Technology, 1997
- Chemical Engineering 607 - Natural Gas Processing Principles, 1995
- Environmental Design 657 - Landscape Reclamation, 1994
- Chemical Engineering 643 - Environmental Engineering Aspects of Air Pollution, 1994
- Chemical Engineering 645 - Environmental Engineering Aspects of Water and Soil Pollution, 1991

**WORK EXPERIENCE:**

Aug. 1996 - Present      **KINETIC PROJECTS LTD.**  
                                    **Project Engineer**

Project engineering and construction management of oil and gas facilities from shop fabrication to field construction.

May 1994 - Aug. 1996      **GEMINI ENGINEERING LTD.**  
                                    **Project Engineer**

Worked on a variety of petroleum resource pipeline and facility projects. Co-ordinated all aspects of projects including initial client correspondence and cost estimates, government permitting, design work and specifications, material procurement, bid tendering, construction support, progress and cost reports.

May 1993 - Dec. 1993      **NOVACOR CHEMICALS LTD. (Joffre, AB)**  
                                    **Project Engineer**

Worked on a project for installing leak detection on underground process storage tanks. Researched and compiled a Joffre site engineering specification on painting and galvanizing. Provided assistance on various mechanical engineering projects.

**ROBERT M. DUNN, RPT(Eng.), R.E.T.  
Business Development Manager**

**EDUCATION**

Various continuing education courses, 1970 - 1993  
Instrumentation Technology, Northern Alberta Institute of Technology, 1969

**PROFESSIONAL AFFILIATIONS**

Instrumentation Society of America  
Alberta Society of Engineering Technologists  
Canadian Gas Processors Suppliers Association

**WORK EXPERIENCE**

2001 - Present	<b>KINETIC PROJECTS LTD. Business Development Manager</b>	
2000 – 2001	<b>GEMINI Corporation Business Development Manager</b>	
1996 – 2000	<b>GEMINI ENGINEERING INC. Senior Instrumentation Technologist</b>	Responsible for instrumentation design, layout, co-ordination, field calibration and start-up. Also responsible for instrument sizing/selection for engineering design, interfacing with vendors in instrument pricing and selection and maintaining an instrument index for individual projects.
1995 - 1996	<b>RNG EQUIPMENT INC., Mississauga, Ontario Vice President of New Business Development</b>	Contract position with mandate to develop a \$20 million/year Instrumentation and Control Division through acquisition of companies.
1979 - 1995	<b>BARBER ENGINEERING &amp; CONTROLS LTD. Sales Manager/Branch Manager</b>	Responsibilities included direction of outside sales engineers, yearly sales forecasting and budget preparation, provided technical assistance to both inside and outside sales people, administration, supervision and hiring of office staff, review of potential new products, ongoing communication with principles, involved with overall direction of the company and participated in the acquisitions of other companies.

**ROBERT M. DUNN, RPT(Eng.), R.E.T.  
Business Development Manager**

**1975 - 1979            BARBER ENGINEERING & CONTROLS LTD., Edmonton, AB.  
                          Senior Salesman**

Responsibilities included sales to major oil company accounts and engineering/construction companies. Also provided technical assistance and training of inside sales personnel as well as organization of displays for project shows.

**1974 - 1975            FISH INTERNATIONAL CANADA LTD.  
                          Senior Instrument Designer**

Consulted on instrumentation and controls to oil companies, contractors and consultants. Also covered process control design, flowsheets, specifications, selection of instruments and supervision on instrument check-out and start-up.

**1973 - 1974            KENONIC CONTROLS LTD.  
                          Senior Designer/Partner**

**1970 - 1973            BARBER ENGINEERING & CONTROLS LTD.  
                          Salesman**

**1969 - 1970            THE FOXBORO COMPANY, Edmonton, AB.  
                          Sales and Service**

**RICK BRASNETT**  
**Construction Manager**

**EDUCATION**

B. Sc., Brandon University  
Senior Matriculation, Rivers Collegiate

**JOSEPH BERNARD OVERACKER  
Construction Superintendent**

## Education: 1975

## Edwin Parr Composite High School General Diploma and Mechanic's Course

**Certified in:**

St. John's Ambulance  
Accident control for Supervisors  
H2S Rescue  
WHMIS  
P1 to P1 Welding  
ACSA Supervisor's Accident Prevention  
Ground Disturbance Course

## WORK EXPERIENCE:

January 1997 - Present **KINETIC PROJECTS LTD.**  
Construction Superintendent:

### Completed Projects for the following clients:

Canadian Natural Resources	Jarvie, Camrose, Frog Lake, Kikino, Joarcam, and Stettler Compressor Stations
Alberta Energy Company	Duhamel Amine Cooler Seibert Lake Oil Battery Leismer, Caribou South, and Caribou North Compressor Stations
Nugas Limited	Armada Compressor Station
Bounty Developments	Smith Compressor Station
Talisman Energy Inc.	Various projects

1996 Flint Canada Inc.  
Project Supervisor

Project: 2 Km. of 4" pipeline and well site facilities

**JOSEPH BERNARD OVERACKER**  
**Construction Superintendent**

**1996                    Parkland Projects, Olds, Alberta**  
**Project Supervisor**

Project:      Petro Canada  
                    Boundary Lake Booster Compressor

**1995 - 1996      Flint Canada, Grande Prairie, Alberta**  
**Area Supervisor**

Projects:      Removal of amine plant from Chetwin B.C. to Alberta.  
                    Assembly of plant and refridge unit and recycle  
                    compressor. 26 Km of pipeline for Canadian Hunter.  
                    Seven wellsite facilities.

**1994 - 1995      F.D. Services, Edmonton, Alberta**  
**Project Supervisor**

Project:      Canadian Hunter (Complete compressor site)  
                    Claresholm, Alberta  
Project:      Fletcher Challenge (oil battery fibreglass piping)  
                    Provost, Alberta  
Project:      PanCanadian (Complete compressor site)  
                    Rockyford, Alberta  
Project:      Home Oil (two booster compressors, dehy and flare  
                    system)  
                    Slave Lake, Alberta  
Project:      Esso (Complete well re-injection water floodsystem)  
                    Cynthia, Alberta

**1994 - 1994      Suedrohrbau, Gimbel and Co. of Germany**  
**Project Manager**

Project:      Construction of oil refinery and 126 Km of 20"  
                    pipeline; in charge of housing, catering, manpower,  
                    project billing, scheduling and the construction of 800  
                    barrel a day refinery in Republic of Syria.

**TOM WALDNER**  
**Shop Project Superintendent**

**OTHER:** Certified Journeyman steamfitter pipefitter  
H<sub>2</sub>S Alive and Standard First Aid Certificates  
WHIMS

**WORK EXPERIENCE:**

1996 – Present      **KINETIC PROJECTS LTD.**  
                            **Shop Project Superintendent**

**Duties include:**

- Responsible for all package assembly from start to finish
- Drafting (Auto Cad)
- Estimating
- Quality control
- Expediting
- Safety awareness
- Subcontractor liaison

1995 – 1996      **TRITON CONSTRUCTION SERVICES LTD.**  
                            **Pipefitter**

Worked for the following companies:

- PanCanadian Petroleum - Provost
- Canfor Pulpmill - Slave Lake
- Conwest Exploration - Grande Prairie

1994 – 1995      **SONEX CONSTRUCTION**  
                            **General Foreman**

Worked for the following companies:

- Paloma Exploration - Grande Prairie
- Canadian Western Natural Gas Company - Carbon Gas Plant

1992 – 1994      **EMERALD CONSTRUCTION LTD. / NTL**  
                            **General Foreman**

Worked for the following companies:

- Amerada Hess - Bezanson Gas Plant
- Nova Compressor Station - Lateral
- PanCanadian Petroleum - Strathmore
- PennWest - Silver Valley

**TOM WALDNER**  
**Shop Project Superintendent**

1985 – 1992      **KENTING OILFIELD SERVICES LTD.**  
**TRITON CONSTRUCTION SERVICES LTD.**  
**Foreman/Pipefitter/Crane Operator/Backhoe**  
**Operator/Surveyor**

Worked for the following companies:

- Nova      - Hussar Compressor Station  
- Byemoor Compressor Station  
- Smoky Lake Compressor Station  
- Lodge Pole Compressor Station  
- Wolf Lake Compressor Station  
- Knight Compressor Station
- Husky Oil - Caribou Lake Steam Injection Plant
- Norcen      - Provost Steam Injection Plant
- British Petroleum      - Wolf Lake Steam Injection Plant  
- Chauvin Oil Battery
- Shell      - Burnt Timber Gas Plant  
- Caroline Central Compressor Station  
- Hamburg Gas Plant  
- Insulated Sour Oil Pipeline, Bowden –  
Amarada  
- Judy Creek
- Canadian Western Natural Gas Co. - Carbon Gas Plant

1986      **JOE JAYS WELDING**  
**Welder**

Built 100,000 barrel liquid fertilizer tanks for  
Cascade Fertilizer in Granum

1979 – 1984      **CANYON PROJECTS LTD.**  
**Welders Helper/Labourer**

Worked for the following companies:

- PetroCanada - Primrose Lake Steam Injection Station
- Ocelot Energy Inc.      - Petrica Gas Plant  
- House Algar Compressor Station
- Husky Oil - Plamondon
- Nova - Elmworth Compressor Station
- Canadian Hunter - Good Fare Compressor Station
- PanCanadian - Scandia Oil Battery

**TOM WALDNER**  
**Shop Project Superintendent**

1983

**PROPAK SYSTEMS LTD.**  
**Pipefitter / Backhoe Operator**

Worked for the following companies:

- PanCanadian
- PetroCanada – Forstburg
- Mobil - Rocky Mtn. House

1980

**FARNS RIG WELDING**  
**Welder**

Duties included:

- Building mud tanks for rigs
- Lead Hand in shop

**RICHARD BETTS**  
**Shop Project Superintendent**

**OTHER:** Certified Journeyman Carpenter  
Currently in third year of Steamfitter/Pipefitter & Gas 2 Apprenticeship  
AutoCad Basic and Level One courses – Northern Alberta Institute of Technology  
H<sub>2</sub>S Alive and Standard First Aid Certificates

**WORK EXPERIENCE:**

1997 – Present: **KINETIC PROJECTS LTD.:**  
**Shop Project Superintendent**

Responsible for the organization of day-to-day activities in the following areas including structural steel fabrication, sandblasting and coating of finished product and overseeing product loading and packaging.

Other duties include performing material take-off's from construction drawings and ordering required material, producing cut lists and detail drawings for issue to the shop, assist other managerial staff with estimating and scheduling, assembly of oil and gas processing packages and piping related drafting.

1993 – 1997 **KINETIC PROJECTS LTD.**  
**Apprentice Steamfitter – Pipefitter / Carpenter**

Responsible in both field and shop fabrication including site preparation involving ditch work as well as final grading and graveling for compressor stations and wellsites, running equipment such as forklifts, sidebooms, packers, surveying and pile layout, concrete forming and pouring, rigging for mobile and overhead cranes, most aspects of the pipefitting trade, sandblasting and painting.
